## Objective

The objective of this policy is to provide a framework which sets out our workplace diversity and inclusion agenda and supports our goals of having an engaged workforce and being a model employer. The framework principally supports the key actions we aim to deliver to enhance the diversity of our people and the services we provide to the community. This policy upholds:

- our diversity vision, our people at work, as diverse as the Australian workforce.
- a work environment wherein managers and staff work together in order to deliver on our goals.
- the need to ensure our external, client facing work acknowledges and respects the diversity and inclusion requirements of the Australian workforce.
- inclusive and flexible work practices in all areas of our business that better support key internal diversity groups.

## Principles

This policy and its related initiatives are supported by principles developed to reflect the key priorities of Dynapumps. The principles are as follows:

- **Accessible opportunities** - creating employment and career development opportunities that are free from known barriers and that promote our commitment to sustainable and flexible careers for all employees.
- **Model Australian workplace** - foster and encourage a workplace that embraces diversity and inclusion to more accurately reflect the diversity of the broader Australian community.
